Never lost a case since 1995

Dear Dinh:

Thanks to you, we were able to resolve every single case involving the IRS during the past 10 years. Together, we were able to successfully defend other taxpayers (including other CPA's and attorneys) in and out of court from IRS audits, collections, criminal investigations and bankruptcy.

No matter how impossible the case might have seemed, you'd find a solution that's agreeable to all parties involved. In many occasions, you discovered errors made by the IRS or other tax preparers, resulting substantial reduction in taxes and sometimes, even a refund. You've done your work so well, even the judges and the IRS Chiefs approved it. Keep up the good work!

Sincerely,
